11:30 AM- 01:00 PM

Venue: Activity Hall

The lecture would like to introduce the students to the notion of the 'text' by differentiating it from the idea of 'literature'. It will also engage with the Barthian distinction between a 'Work' & a 'Text'. Also, the lecture will introduce students to the various ways by which texts can be read – ways like close reading, contextual reading etc. with examples. Finally the lecture will demonstrate how a text can be read from the perspective of a woman.
